25X1

At the end of May 1952, the warehouse of the former German army bakery in Frankfurt/Oder stored 450 tons of flour. An additional 450 tons of flour were stored in tents in the yard of the main supply depot as the storerooms were filled to capacity. A Soviet captain stated that 900 more tons of flour were expected to arrive. During the period from 8 May to 5 June 1952, the following shipments arrived at, or were dispatched from, the main supply depot at Frankfurt/Oder:

Incoming Shipments:

Date 1952	Number of Boxcars	Load	From
8 May	1	toast	Dresden

*

* Comment. The rate of incoming and outgoing shipments at the main ration supply depot was almost equal. A total of 234 cars, including 104 carloads of flour, arrived and 231 cars, including 79 carloads of flour, were dispatched. The assumption

that an increased storing of ration supply is under way is confirmed by the information that the depot is filled to excess. The quantity of flour stored which made it necessary to use tents as storing place is noteworthy. The arrival of further flour shipments under the grain shuttle program is possible.
